

## Quinn Patwardhan

(301) 841-5030 – [qroshan5@gmail.com](mailto:qroshan5@gmail.com) – [quinnpatwardhan.com](http://quinnpatwardhan.com) – <https://github.com/qpxdesign>

## Education

Occidental College (Expected Graduation: May 2028) – 3.94 GPA

Majors: *Computer Science* and *Media Arts & Culture*

Relevant Coursework: Data Structures & Algorithms, Computer Organization, Discrete Math, Linear Algebra, Cybersecurity, Deep Learning (In-Progress)

## Work Experience

### Occidental College Information Technology Services

#### *Helpdesk Technician*

**September 2025 - Present**

- Work with professors, staff, and students over the phone, email, and in person to address their software and hardware problems in a timely and professional manner

### Vidiots Foundation

#### *VHS Archival Intern*

**May 2026 - July 2026**

- Photograph, Market Research, Catalogue, and Organize 10,000+ Rare VHS Tapes
- Develop Python Application to dramatically increase cataloguing and market researching efficiency

### Occidental College Department of History

#### *Research Assistant*

**September 2024 - December 2024**

- Grant-funded research to develop tools to help historians digitize and visualize centuries-old maps and other archival data
- Used React, Redux, and Typescript to create interactive data explorer and digitizer

### Georgetown University InfoSense Artificial Intelligence Research Lab

#### *Research Intern*

**May 2023 - February 2024**

- Attempted the National Institute of Standards and Technology's TREC iKAT Challenge using Python, PyTorch, Multi-Architecture Language Models and Retrieval Methods
- Developed a unique solution that placed 2nd overall in 6 scoring categories
- Wrote paper and attended/presented at the international college-and-industry level Text Retrieval Conference at the National Institute of Standards and Technology

## Projects

### AmTrack ([App Store Link](#))

**May 2023 - Present**

- Developed, Published, and Maintained Amtrak Train Tracker IOS App w/ 100,000+ total downloads, \$2600+ total revenue, 1000+ daily users, and 250+ 5-star reviews.
- Invited to Amtrak Headquarters and met with CEO, CIO, Director of Recruiting to discuss my work and improvements that can be made at Amtrak
- Written in React and Typescript with a Rust Backend and Redis Cache Layer, self-hosted with Docker

### MarcMap ([App Store Link](#))

**Feb 2023 - Present**

- Developed, Published, and Maintained MARC Train Tracker with a React JS Website / Swift UI IOS App that received 50,000 Total Downloads, 500 Daily Users, 100+ 5-star reviews

## Publications

Quinn Patwardhan and Grace Hui Yang. "Sequencing Matters: A Generate-Retrieve-Generate Model for Building Conversational Agents". In: *The Thirty-Second Text Retrieval Conference (TREC 2023)*. 2023.

<http://arxiv.org/abs/2311.09513>

## Skills

Full-Stack Development: React, Typescript, CSS, HTML, React Native, Swift/SwiftUI, Java

Data Science: Python, PyTorch, SciKit, Rust

DevOps: MySQL, Docker, Postgres, Redis, Linux, AWS CLI
